UAC - Parents: how to support students during exams

At this time of the year, it's not unusual for some students to lose motivation or feel overwhelmed by the pressure of exams. How can parents provide support during these challenging weeks? We asked a careers adviser and a mental health expert for some practical tips.

<https://www.uac.edu.au/media-centre/news/parents-supporting-students-during-exams>

Explore Your Options at Macquarie

Deciding where to study is a huge decision so it's important that students get all the information they need.

Macquarie University is inviting prospective students to register for Explore Your Options. From Monday, 13 December to Thursday, 23 December 2021, Macquarie University's friendly experts will be available from 10am to 4pm to advise on all things Macquarie. Students will have the chance to speak to current students, find a pathway into uni, take a campus tour, or take the next step and enrol.

Register your interest [here](#).

Macquarie Campus Tours Resume

from 1 December 2021

Macquarie University understands the crucial role learning environments play in student success which is why they've invested more than \$1 billion in facilities and infrastructure.

From 1 December, future students can register to tour our new facilities and get a taste of Macquarie's unique campus life.

Register your interest [here](#).

Macquarie Ancient Languages Summer Week 2022 – Ancient Greek, Hieroglyphics and Classical Hebrew

Summer Week 2022: 10–14 January

The Macquarie Ancient Languages School (MALS) provides an opportunity to engage with ancient cultures through the study of their languages in a friendly and stimulating environment. MALS offers intensive courses in Greek, Egyptian, Latin (winter only), Coptic, Hebrew, and Akkadian. Our week-long sessions run on the Macquarie University campus (North Ryde, NSW) in January and July each year and are led by our team of dedicated tutors. Many are postgraduate students embarking on research in relevant fields or language teachers working in the secondary or tertiary sector. The School employs methods designed to support adult learners (16 years of age and up) from a wide range of backgrounds. You may, for instance, be a university student wanting to begin your engagement with ancient languages or strengthen existing skills and experience.

Space Travels MQ - Episode 004 - Cosmic Nurseries and Graveyards

3 December 2021. 8.30pm to 10.00pm

We share a profound connection with our Universe. The elements made in stars are the very same elements that make up our bodies and everything around us. Just like humans, stars are born, they age, and eventually, they die. During their lives, they act as cosmic chemical factories and forge the majority of the chemical elements that we see around us. Towards the end of their lives, stars eventually eject the elements they create into interstellar space, thereby chemically enriching their surroundings. From this enriched gas and dust, new stars are born, and the cycle repeats. Come, join us as we wander through glorious stellar birthplaces and the graveyards and explore the life and death of stars.

CSU - Essential Energy Aboriginal and Torres Strait Scholarship

Closes 2 February 2022 at 9am

Essential Energy is a NSW Government owned corporation, with responsibility for building, operating and maintaining Australia's largest electricity network-delivering essential network services to more than 800,000 homes and businesses across 95% of NSW and parts of southern Queensland.

<https://study.csu.edu.au/get-support/scholarships/find-scholarship/foundation/any-year/essential-energy-aboriginal-and-torres-strait-scholarship>

The University of Melbourne In response to the delayed release date for NSW and ACT ATARs

The University of Melbourne has committed to make offers to eligible domestic school-leaver applicants in the VTAC February offer round 1 domestic to the same level ATAR that we offer in the January offer round domestic. Full statement and details can be found here:

<https://study.unimelb.edu.au/change-of-preference/interstate>

UNSW Physics Bridging Course

UNSW Physics bridging course provides you with the strong base of HSC Physics you'll need to successfully undertake Physics at university level.

UNSW Physics bridging course offers you the opportunity to revise or strengthen your knowledge of HSC Physics so you can successfully manage your studies in year one of university.

Your lecturer or tutor will reasonably expect this assumed knowledge at the beginning of your studies.

Undertaking the bridging course will ensure you're not at a disadvantage if you do not have a strong background or any prior knowledge in HSC Physics and intend on studying physics in the first year of your degree.

However, it is highly recommended that you have HSC Mathematics level knowledge

Learn more here:

<https://www.science.unsw.edu.au/study-us/undergraduate/bridging-courses/physics-bridging-course>

UNSW Chemistry Bridging Course

Using online lectures, optional on campus tutorials and laboratories Monday 31 January to Thursday 3 February 2022, you will become familiar with the way that Chemistry is taught at university level.

UNSW Chemistry bridging course provides 40 hours of tuition and will be offered fully online (with an optional in-person component) in 2021. The fee is \$380.

UNSW Chemistry bridging course is tailored to help you prepare for further studies that include chemistry in the first year of your degree.

It's perfect for you if you have no prior knowledge of HSC Chemistry and intend on studying Chemistry 1A.

To check if you need to study the Chemistry bridging course, you can call our student adviser on (02) 9385 4666.

<https://www.science.unsw.edu.au/study-us/undergraduate/bridging-courses/chemistry-bridging-course>

UNSW Mathematics Bridging Course

The UNSW Mathematics bridging course is designed to prepare you for entry into university programs requiring first-year Maths. It will help develop your skills and basic understanding to step confidently into your first year of study. Offered three times a year, UNSW Mathematics bridging course runs before Term 1 (February), term 2 (May) and Term 3 (September) each year. It provides 40 hours of tuition comprised of online lectures and optional face-to-face tutorials.

The fee is \$380.

The UNSW Mathematics bridging course is for you if you have no prior knowledge of HSC Mathematics Extension 1 and intend to pursue maths-related courses in the first year of your degree.

It prepares you for entry directly into [MATH1131 Mathematics 1A](#), which is a compulsory course in many science-based degrees as well as all engineering and mathematics degrees at UNSW.

<https://www.science.unsw.edu.au/study-us/undergraduate/bridging-courses/mathematics-bridging-course>

2021 Ratings: The best universities for accounting

Accountants play an active role in the business world and can work in any industry or sector. The field covers many different workplaces, roles and specialisations and there is much call for skill in making deals, getting on with people and thinking in big strategic terms.

Skills required for an accountant include bookkeeping, statistics and finance. This will be useful in several industries, where accountants provide businesses financial information to make business decisions.

There are over [260 undergraduate accounting degrees listed on our course search](#). These ratings look at specific strengths of Australian universities, giving insight to support and guide your decision-making when choosing a university. You can view the rankings in terms of how each university performs overall, or you can narrow down by field of study and state.

We looked at which Australian universities with accounting degrees performed best in learning resources, graduate salary and skills development.

<https://www.gooduniversitiesguide.com.au/education-blogs/rankings-ratings/the-best-universities-for-accounting-2021>

ACU – New Bachelor of Commerce

The Bachelor of Commerce offered by the Peter Faber Business school has been revised and is now ready to provide students with creative, critical thinking and problem solving skills that will help launch their careers.

The program now contains foundational business units that allows a student to identify their areas of interest before they choose their majors to specialise in. Students are now able to begin their major units within the second semester of their first year of study.

Within this course, students will develop a global outlook and intercultural competencies that can be applied to real-life situations. The course is also now Microsoft certified, which provides our commerce graduates a competitive edge in the job market.

Additionally, the course will open the door to networking opportunities with ACU graduates, allowing students to connect with them for industry and career support.

[Learn more about how the course was redesigned>>](#)

ACU – New Bachelor of Youth Work

The [Bachelor of Youth Work](#) is coming to our Blacktown Campus in 2022.

This course will help foster a student's emotional and social development, and it encourages critical thinking about the environments young people live in.

Our course explores the complex issues that many young people face including homelessness, mental health, poverty and resettlement in a new country.

[View a video of one of our youth work graduates>>](#)

ACU – New Bachelor of Arts (Western Civilisation)/Bachelor of Laws

In 2022 we are launching the [Bachelor of Arts \(Western Civilisation\)/Bachelor of Laws](#). This rigorous and stimulating intellectual program give students the option of combining a professional legal education with a liberal arts degree in Western civilisation.

The degree provides opportunities for students to explore the past, present and future of Western intellectual life and to expand knowledge and skills drawn from the humanities, arts and social sciences.

Collectively with the [Bachelor of Arts \(Western Civilisation\)](#), which was launched this year, our [Western civilisation](#) courses provide eligible students with scholarships valued from \$90,000 to \$150,000, generously funded by the Ramsay Centre.

ACU – New Archaeology major for the Bachelor of Arts

In 2022 we will be introducing a new major to our [Bachelor of Arts](#) offering. Dedicated to the archaeology, history and languages of Ancient Israel, the Archaeology major will be delivered online and available for on-campus study. Students will have the opportunity to participate in an archaeological dig in Israel as part of their studies.

How do you know which Uni course is right for you?

This time last year, few people could have imagined the impact COVID-19 would have on our lives and studies. Year 12 students have had their final year of school disrupted from a learning and social perspective and university students have had to adapt to a very different university experience. With at least one in four first year students changing courses or leaving university, it pays to spend time comparing courses carefully. The following are just few points that might be helpful when selecting the right course for you.

<https://www.gooduniversitiesguide.com.au/education-blogs/tertiary-study/how-do-you-know-which-course-is-right-for-you>

Bond University - Early Bird Offer to Study at Bond

Applying online to study at Bond University is free and easy. We encourage you to lodge your application as soon as you have decided what you would like to study. 12 February to 2 April 2022

Are you a teen that has a dream of becoming a professional actor? Screenteens acting classes for young adults, may be your ticket to stardom! The Screenteens 8-week Intensive is designed for young actors between 12 – 16 years old who are looking for a successful move into the Film and Television Industry. This program is the ideal platform for all young adults interested in commencing or extending their experience in front of the camera. No audition is required! Students will learn how to break down a scene, build a character, find the truth in performing, use props, take direction, master continuity and act in front of the camera each week – all within a fun, yet professional learning environment. Screenteens acting classes run in conjunction with school terms each Saturday morning, with one class per week over an 8-week period- making it the perfect course for you. No audition is required.

<https://screenwise.com.au/courses/screenteens-term1-2022/>

Bedford College Scholarships 2022

Bedford College offers scholarships toward tuition fees

Our scholarships are designed to give students opportunities they might not otherwise have. We recognise that every student is different and all shine in their own way. We see hard work and determination as an indicator of a potential scholarship candidate and also recognise that there are many other reasons we may consider when selecting those to receive this grant.

In short, we are investing in the potential this person has to positively impact the community in the future, not merely assess their achievement in the past.

Scholarships are made as a reduction in fees distributed evenly across the duration of their course of study.

*Excludes students who are eligible for Smart & Skilled or other funding.

Email us for further information at info@bedford.edu.au

<https://www.bedford.edu.au/about/scholarships/>

Endota Wellness College Virtual Info Sessions

Sessions run every Thursday at 11am or 5:30pm (AEDT)

AIM Music Theatre Workshop

16 December 2021

66 Harrington Street, The Rocks

This is your chance to experience what it's like to study music theatre at AIM! Join us for a free music theatre workshop on Thursday 16th December at Sydney's incredible new campus in The Rocks. Sing, dance and act with our industry veteran lecturers and meet your potential future classmates.

Graduates of AIM's prestigious music theatre program appear in world-class theatre productions around the world, from Heathers to Hamilton. Would you like to gain the experience and specialised training to launch your own music theatre career? Our music theatre workshop is the perfect opportunity to get a window into the AIM experience.

Our music theatre workshop will feature:

1 hour dance session run by [Penny Martin](#)

1 hour acting class run by [Danielle Maas](#)

1 hour voice master class run by [David McLeod](#)

Q&A with AIM staff and leading music theatre performer and alumni [Julian Kuo](#)

Keen to learn more about studying and what to expect after you graduate? AIM Sydney's music theatre workshop will also include a Q&A session with leading music theatre staff and accomplished alumni aimed at giving you an insight into the industry and what you'll learn at AIM. We can't wait to meet the music theatre stars of tomorrow.

ACPE enhances it's Early Offer Program - Get your offer now!

We know that the last 18 months has been a difficult and challenging period for teachers and particularly students undertaking their final year and preparing for the HSC. We are aware of the stress and anxiety your students have faced because of the Covid Pandemic. As a result, we have reviewed our Early Acceptance Program (Early Entry & Offer) and enhanced it to make it easier to receive an offer.

The good news, ACPE's enhanced Early Offer program will now allow students to submit and receive an offer based on Yr.11 Results and the completion of the HSC. This means students now have the option to receive and accept an offer prior to the HSC. Now students can receive an offer based off their Year 11 results! They are now able to utilise this program for entry into their preferred course*

<https://acpe.edu.au/earlyaccept/>

Upload your Yr 11 results here:

Naval Shipbuilding College Work Register

Thousands of people will be required across the country, for decades to come, to design, build and maintain the future fleet. The jobs are across the Enterprise – from the major shipbuilding contractors and systems integrators to the local businesses contributing some of the millions of parts within the supply chain; to research, education and training organisations delivering the next generation of knowledge and skills; to the women and men of the Royal Australian Navy who will operate the future fleet; and Commonwealth, and State and Territory Governments working in close partnership to ensure the Enterprise's success.

Employees will have the opportunity to earn training and qualifications across many high-end skills and professions that will provide a solid foundation for a rewarding and meaningful career.

Places to upskill without returning to formal study

The workforce is ever-changing, and with new ways of working comes the need to upskill. For those considering a career change, branching out into a new area or just want to ensure their skillset is relevant, there are other paths you can pursue before you look at heading back to uni.

Soft skills are applicable to most, if not all areas of employment — think communication, public speaking, conflict resolution or leadership. These are skills that all can be developed and mastered over time. There are some great websites that allow for rich development in these skills, as well as technical skills in particular software programs.

5 recruiter tips for getting your resume seen

How long does a recruiter spend reviewing a resume? 3 minutes? 10 minutes? 20 minutes?

How about less than 8 seconds? Career website, The Ladders reported that recruiters typically spend 7.4 seconds deciding on a resume. This means that job-seekers need to know exactly what recruiters are looking for within that time frame. A resume serves a firm purpose, so you need to make sure everything about it is in sync with that purpose: landing the job. Here are five tips to help you do just that. [To see more click here.](#)

Managing conflict in the workplace

How do you handle conflict at work? If there is a difference of opinion between colleagues about how to carry out a task or project, what do you do? Some people leave the conflict for someone else to deal with, or avoid the conflict or situation. Others state and push for their opinion, or may state their opinion but give in when other people have stronger opinions. A good approach though is to discuss the differences in opinion, and try to find an option that you all agree on.

2022 The Westpac Young Technologists Scholarship with University of Wollongong

Open to 21 January 2022

The Westpac Young Technologists Scholarship is a gamechanger for any high school graduate who is passionate about tech and eager to explore its potential for good.

First up, you'll receive \$5,000 per year over three years - \$15,000 in total. Everyone has different financial situations and pressures, so the funding is 100% flexible. This means you can choose how you spend it.

The real value of this scholarship, however, comes through opportunities and experiences that may otherwise be out of reach.

All Young Technologists Scholarship recipients will take part in the Disruptive Leaders Program – a five-day intensive program in Asia (pending COVID travel restrictions) designed to develop your leadership capabilities, cultural intelligence and international connections.

You will also become a lifelong member of the Westpac 100 Scholars Network (W100). Growing by 100 inspiring Aussies each year, the W100 is a unique network of support and opportunity. You'll have access to internships, inspiring mentors, leadership development and networking opportunities.

If this sounds like an opportunity for you, apply today!

For more information, you can visit the [Westpac website](#).

Applicants are encouraged to be available for interview during Late January 2022.

To apply please visit: [Westpac Young Technologists Scholarship](#)

Sydney Youth Orchestra HSC Summer School

Monday 17 – Thursday 20 January 2022, 3:30-6:00pm

Presented by highly experienced music educators and regular HSC markers, the HSC Preparatory Course at SYO Summer School is specifically designed to assist students in Years 10, 11 & 12 (in 2022) to prepare for and polish their understanding of HSC Music 2 & Music Extension in a focused, supportive and engaging environment.

HSC Summer School focus is on Composition, Musicology and Sight Singing

RECOMMENDED FOR: All Year 11 & 12 HSC Music 2/Extension students (in 2022) as well as Year 10 students (in 2022) preparing for HSC Music 2/Extension. Participants can expect to receive intensive training on theory, composition, essay writing, thesis development and constructive performance critique (performance focus is within HSC Winter School). The HSC Preparatory Course at SYO Summer School will run both online and in person, giving musicians who are unable to make it to Sydney the option to participate in the program and receive this program.

AIESEC International Youth-Run Leadership Organisation

3rd - 15th January 2022

Here is an opportunity to students interested in gaining team experience, practise critical-thinking and being exposed to industry speakers and concepts, especially related to business mindsets, technology and UI/UX design.

We are AIESEC, an international youth-run organisation focused on developing leadership in the next generation of young people. AIESEC in UNSW is currently offering and promoting a career development program, Heading for the Future in the technology stream. Heading for the Future runs throughout the year but currently our technology stream is a 2 week program (3rd - 15th January) aimed to provide participants with a taste of what it's like to work in a specific industry. Our stream is partnered with Enosi, a renewable-energy focused company, who will be helping us showcase what it's like working in the UI/UX sector through hard and soft skill workshops and a case study involving customer journey mapping and web landing pages. All participants will also receive a certificate acknowledging their completion of the program. This program is \$230 and will only allow students aged 18 and over by January the 3rd 2022. If you are interested, we would highly recommend signing up as soon as possible as there are limited spots. Availability to apply for this stream will end on the 13th of December, unless spots are filled before the date.
